intro1_eu This voluntary survey is part of a research study led by the University of Maryland. The purpose of this research is to gain a better public understanding of where and how the coronavirus pandemic is spreading. Your personal data shall be processed for this research purpose only. Even if you feel well, your participation will greatly aid our research. This survey will take about 3-5 minutes. This study is not conducted by Facebook and no individual responses will be shared back to Facebook. The only information we receive from Facebook is your language preference and a
random ID number and a statistical number (based upon age, gender and location, as well as other information from your Facebook data) to help correct for sample bias and help ensure the results are representative for your country.
In order to ensure that we cannot identify you and to keep your responses confidential, we do not collect your name or any other personal data from you. Published results will be aggregated and will not identify you individually or your responses. You may stop taking the survey at any time and may skip any question that you do not wish to answer. Your responses will be retained for the duration of this study, up to a maximum period of two years from the date you completed the survey. If you have questions about the study or how you can exercise your data protection rights, including your right to access, rectification, portability and erasure, please contact:
admin-C19survey-fb@umd.edu; 1204 Marie Mount Hall, College Park, MD 20742, USA. Where any transfer occurs outside the EU, appropriate data protection safeguards will be relied upon, in accordance with applicable data protection law.
You understand the above and consent to take part in this survey run by the University of Maryland.
